12 Products not intended for direct skin contact, minimal or insignificant transfer to skin	Candles, Insecticides for clothing	100,0000 %

The assessment was carried out in accordance with the currently valid IFRA standards and the current IFRA Code of Practice. The calculation is based on typical contents of ingredients naturally occurring in the raw material. For all other applications or higher use concentrations, a new assessment must be carried out. The client is responsible for the safe use of the final cosmetic product.

Additional information

All information is based on our current state of knowledge and is not transferable to other products. They do not constitute an assurance or guarantee of a specific property or intended use. Each use of the products supplied by us must be tested in the respective application and checked for any existing industrial property rights.
